

Bleeding Time

Brother Jack

Key of E Capo 4

Verse 1:

C

They say that we are all
In the same boat

G

Looking around, I don't see nobody
But me, myself, and I

C

Maybe it's not the same boat
But the very same ocean

G

If you're in this ocean too
Brother, I pity you

Chorus:

C

I am lying on the deck
Bleeding out time

F

Stretched too thin
Squeezed too tight

G

I wonder when I am

C

Bruised and battered
Without an anchor

F

All we have for sure is time

G C

I'm watching mine bleed away

Verse 2:

Stuck in the same storm
For nigh on six weeks
Tossed and turned and pitched about
And pitched about again

When it all seems over
I look up at the soggy stars
And near as I can tell
I'm stuck right here
Right where I had began

Verse 3:

I found myself stuck
Inside a duldrum
Not a wind, a breeze, or a seagulls fart
To move the sail
I thought I'd be stuck here
For all eternity
I was racing fast
To the very edge of the map

Verse 4:

Up and down on the waves
It's a natural motion
No matter how steep or severe
It's something you can always count on
We've been plunged right in
In and out and sideways
Noting natural here
On which I can rely

Verse 5:

Even though we are tossed about
Just trying to hang on
We got no ritual, no routine
No port in the storm
I look up at the sky
The stars still shine
I am confident we will find
Our way again
